

## Instead of moving to her new company's home, Becky Wolever moved the company to hers.

Becky enjoys volunteering with the Pleasure Guild to help children at Columbus Children's Hospital, one of 16 Ohio hospitals to make the U.S. News and World Report list of "Best Hospitals" for 2006.

In fact, nearly 10% of this year's "Best Hospitals" are located in Ohio.

### **BECKY WOLEVER'S STORY**

**"From Ohio, we serve our global client base efficiently and cost effectively. And there's so much for active families like ours to do together."**

Becky Wolever, COO  
Signature Worldwide

When Becky Wolever and her husband joined the management team at Signature Worldwide in 1991, they had a choice: Move from Ohio to Memphis. Or move the company from Memphis to Ohio. They chose the latter and have never regretted it.

Now renamed Signature Worldwide Business and Training Solutions, the company has grown from four employees to 250 and has become one of the world's leading employee training providers for service-based companies, including Caterpillar, Crowne Plaza, Hertz Equipment Rental, Marriott, Wynn Casino, and Volvo and Mack Trucks. In Ohio, Becky has a strong labor force with a great work ethic — ideal for service-based industries. And Ohio's central location with its many airports and low fares is a perfect base for their extensive domestic and international travel.

A native of Iowa, Becky also lived in the South, but Ohio is where she and her close-knit family chose to settle. Becky cites the excellent school systems and universities, plus the many recreational opportunities her family can enjoy together. Ohio's uncrowded, unhurried lifestyle even allows Becky time for the volunteer work she finds so satisfying.

Becky could easily have moved away, but she knew Ohio was the best place for her business and to enjoy her life.
